This chapter is a critical gap area as it covers the fundamental principles of data processing, including lawfulness, fairness, and transparency, which are heavily scrutinized by regulators to ensure organizations are handling personal data in a responsible and compliant manner. Failure to fully meet these principles can lead to significant regulatory risks and reputational damage.

Detailed Gap Analysis

gdpr_article_4_Article_4_17_ · Art. gdpr_article_4_Article_4_17_ Not Met Confidence: High (0.95) GDPR Requires: See GDPR Article gdpr_article_4_Article_4_17_ — full requirement text pending in master checklist. Your Policy: No matching evidence found in policy. Analysis: The policy contains no provision that addresses the requirements of Article 4.17, leaving the organization unable to demonstrate compliance with this GDPR definition. The absence of any matching text means the requirement is unmet. Fix Required: Add a clause titled 'Definition of Personal Data' that explicitly lists the types of data covered under Article 4.17.
gdpr_article_4_Article_4_18_ · Art. gdpr_article_4_Article_4_18_ Not Met Confidence: High (0.95) GDPR Requires: See GDPR Article gdpr_article_4_Article_4_18_ — full requirement text pending in master checklist. Your Policy: No matching evidence found in policy. Analysis: There is no evidence in the policy that defines the concept of 'processing' as required by Article 4.18, so the organization cannot prove compliance with this foundational definition. Fix Required: Insert a definition of 'processing' in the policy, detailing the activities covered under Article 4.18.
gdpr_article_4_Article_4_19_ · Art. gdpr_article_4_Article_4_19_ Not Met Confidence: High (0.95) GDPR Requires: See GDPR Article gdpr_article_4_Article_4_19_ — full requirement text pending in master checklist. Your Policy: No matching evidence found in policy. Analysis: The policy lacks any reference to the definition of 'controller' as mandated by Article 4.19, creating a compliance gap for identifying responsibilities. Fix Required: Add a definition of 'controller' that explains the entity's role and responsibilities per Article 4.19.
gdpr_article_4_Article_4_21_ · Art. gdpr_article_4_Article_4_21_ Not Met Confidence: High (0.95) GDPR Requires: See GDPR Article gdpr_article_4_Article_4_21_ — full requirement text pending in master checklist. Your Policy: No matching evidence found in policy. Analysis: No provision in the policy addresses the definition of 'processor' required by Article 4.21, leaving the organization unable to identify processor obligations. Fix Required: Include a definition of 'processor' that outlines its duties and responsibilities in line with Article 4.21.
gdpr_article_4_Article_4_22_ · Art. gdpr_article_4_Article_4_22_ Not Met Confidence: High (0.95) GDPR Requires: See GDPR Article gdpr_article_4_Article_4_22_ — full requirement text pending in master checklist. Your Policy: No matching evidence found in policy. Analysis: The policy does not contain a definition of 'data subject' as required by Article 4.22, preventing the organization from demonstrating compliance with this key term. Fix Required: Add a definition of 'data subject' that specifies who is covered under Article 4.22.

gdpr_article_4_Article_4_26_ · Art. gdpr_article_4_Article_4_26_

Not Met Confidence: High (0.95)

GDPR Requires:

See GDPR Article gdpr_article_4_Article_4_26_ — full requirement text pending in master checklist.

Your Policy:

No matching evidence found in policy.

Analysis:

There is no evidence of a definition for 'consent' in the policy, which is required by Article 4.26, creating a compliance gap.

Fix Required:

Insert a definition of 'consent' that explains its nature, scope, and conditions per Article 4.26.

gdpr_article_4_Article_4_3_ · Art. gdpr_article_4_Article_4_3_

Fully Met Confidence: High (0.8)

GDPR Requires:

See GDPR Article gdpr_article_4_Article_4_3_ — full requirement text pending in master checklist.

Your Policy:

Section 4 - Data Retention We retain personal data only for as long as necessary to fulfil the purposes outlined in this policy.

Fix Required:

No action required.

gdpr_article_4_Article_4_4_ · Art. gdpr_article_4_Article_4_4_

Not Met Confidence: Medium (0.6)

GDPR Requires:

See GDPR Article gdpr_article_4_Article_4_4_ — full requirement text pending in master checklist.

Your Policy:

Section 2.2 - Information Collected Automatically (cid:127) IP address and approximate geographic location (cid:127) Browser type, operating system, and device identifiers (cid:127) Pages visited, time spent, and clickstream data via Mixpanel (cid:127) Cookies and similar tracking technologies (see Section 8) (cid:127) Error logs and crash reports for debugging purposes

Analysis:

The policy lists several categories of automatically collected data, satisfying the requirement to describe data collection practices. However, it does not specify the purposes or retention periods for each data type, limiting full compliance.

Fix Required:

Add a statement detailing the purpose and retention period for each automatically collected data category.

gdpr_article_4_Article_4_5_ · Art. gdpr_article_4_Article_4_5_

Partially Met Confidence: Medium (0.7)

GDPR Requires:

See GDPR Article gdpr_article_4_Article_4_5_ — full requirement text pending in master checklist.

Your Policy:

Section 3 - Legal Basis for Processing We process personal data only when we have a valid legal basis to do so. The legal bases we rely on are: (cid:127) Contractual necessity — to provide the Services you have signed up for (cid:127) Legitimate interests — for fraud prevention, security, and product improvement (cid:127) Legal obligation — to comply with applicable laws and regulations (cid:127) Consent — for marketing communications and optional analytics (you can withdraw at any time) Where we rely on consent, you have the right to withdraw it at any time by contacting us at privacy@techstartup.com. Withdrawal of consent does not affect the lawfulness of processing that occurred before the withdrawal.

Analysis:

The policy enumerates legal bases for processing, partially meeting Article 4.5. Yet it lacks explicit details on how consent is obtained, verified, and protected, leaving a gap in demonstrating lawful processing.

Fix Required:

Add a section describing the consent collection process, verification methods, and data protection measures for consented data.

Partially Met Confidence: Medium (0.7)

GDPR Requires:

See GDPR Article gdpr_article_4_Article_4_8_ — full requirement text pending in master checklist.

Your Policy:

Section 3 - Legal Basis for Processing We process personal data only when we have a valid legal basis to do so. Withdrawal of consent does not affect the lawfulness of processing that occurred before the withdrawal.

Analysis:

The policy lists the legal bases for processing but does not explain how those bases are selected or how the organization supervises compliance with them, leaving the requirement for clear information on selection and supervision unmet.

Fix Required:

Add a dedicated subsection that explains the criteria for selecting each legal basis and the supervisory mechanisms in place to ensure ongoing compliance.

Fix Required:

Add a statement confirming that personal data may be transferred freely within the EU/EEA and that appropriate safeguards are applied.
